

June 2, 2025

The Honorable Susan Collins, Chair
U.S. Senate Appropriations Committee
S-128 United States Capitol
Washington, D.C. 20510

The Honorable Tom Cole, Chair
U.S. House Appropriations Committee
H-307 U.S. Capitol
Washington, D.C. 20515

The Honorable Patty Murray, Vice Chair
U.S. Senate Appropriations Committee
S-146A United States Capitol
Washington, D.C. 20510

The Honorable Rosa DeLauro, Ranking Member
U.S. House Appropriations Committee
1036 Longworth House Office Building
Washington, D.C. 20515

Dear Chairwoman Collins, Vice Chair Murray, Chairman Cole, and Ranking Member DeLauro:

We, the undersigned alumni of the Federal TRIO Programs (TRIO), write to ask that you reject the Administration's proposal to eliminate TRIO and work to ensure these vital education programs are funded at the highest possible level in FY26.

For more than 60 years, TRIO has helped low-income, first-generation students transform into college graduates. **We are those college graduates.** With more than six million alumni now serving as leaders in their communities – as educators, lawmakers, business leaders, and scientists – the success of TRIO programs are clear. College degrees remain a key driver of our economy. Higher degrees of educational attainment translate into higher wages, a broader tax base, and lower rates of unemployment.

TRIO serves students from every background. TRIO serves nearly 870,000 students—ranging from sixth- graders to adult learners—through nearly 3,500 individual programs in each U.S. State, the District of Columbia, Puerto Rico, and the Pacific Islands annually. (A visual map of the 2023-2024 TRIO footprint may be viewed [here](#).) TRIO programs are staples in communities of every kind – and have a particular impact in rural areas where fewer resources are available to serve students in need.

The data on TRIO's effectiveness is clear:

- **Upward Bound** students are more than twice as likely to earn a bachelor's degree by age 24 than students in the lowest income quartile.
- **Student Support Services** participants are 47% more likely to complete a two-year degree or transfer, and 18% more likely to complete a bachelor's degree than similar nonparticipants.
- **Talent Search** students are 33% more likely to enroll in college than other students from the bottom income quartile.
- **Veterans Upward Bound** participants are 42% more likely than their peers to earn a bachelor's degree within six years.
- **Educational Opportunity Centers** report that 60.6% of "college-ready" participants enrolled in higher education, and 71% applied.
- **McNair Postbaccalaureate Achievement** participants are 78% more likely to enroll in graduate school compared to similarly situated low-income college graduates.

Additional information about TRIO programs' efficacy, including the return on the federal investment, is available [here](#).

We are proud that as TRIO alumni we can contribute socially and economically to our communities

because of the impact that TRIO has had on our lives and families.

We implore you to fund the Federal TRIO Programs at the highest possible level for FY26.

Sincerely,

Alumni of the Federal TRIO Programs

CC: All Members of the U.S. House of Representatives and U.S. Senate
